### Compensation Discussion and Analysis

#### About Innovate BC

A Crown Agency of British Columbia, Innovate BC works to foster innovation across the province and bolster the growth of the local economy through delivering a wide range of programs that help companies start and scale, access talent and encourage technology development, commercialization, and adoption. Innovate BC also harnesses crucial data collection and research, and works to forge strategic industry and community partnerships that create more opportunities for B.C. innovators.

#### Compensation Philosophy

Innovate BC believes in remunerating its staff comparable to what is offered by similar organizations. To remain competitive, and in order to retain and attract the best talent, Innovate BC has implemented a compensation plan to rationalize the compensation levels of current staff and standardize compensation for future placements. The following core principles guide compensation at Innovate BC:

- **Performance and Differentiation** – Compensation programs support and promote a performance-based (merit) organizational culture. Differentiation of salary is supported where there are differences in the scope of the position within an organization and/or due to superior individual team contributions.
- **Accountability and Transparency** – Compensation decisions are objective and based upon a clear and well documented business rationale that demonstrates the appropriate expenditure of public funds. Compensation programs are designed, managed and communicated in a manner that ensures the program is clearly understood by employees and the public while protecting individual personal information.

#### Executive Compensation and Benefits

The Board and Compensation Committee determines the executive compensation within the guidelines provided by the Public Sector Employers' Council (PSEC), and the Committee plays leadership roles in the development of the total compensation philosophy for the executive team.

- The Board approves the CEO compensation package including base salary and benefits, which is subject to the approval of PSEC.
- Executive compensation is reviewed on a regular basis. Executive compensation is based on the ranges outlined in the compensation plan that has been approved by PSEC.
- Innovate BC's executives participate in the BC Pension Plan – Public Service, which is administered by the BC Pension Corporation.
- Vacation provisions are aligned with the BC Public Service for excluded employees.
- All Innovate BC's executives are offered a competitive range of standard public sector benefits entitlements such as extended health and dental, group life insurance and short- and long-term disability insurances.
